Great opportunity to acquire this large 4 bedroom, very unique apartment. being solo on its own floor in the middle of Marbella centre.

This is an opportunity in many ways as there are only five apartments, the chances of one of them going for sale does not happen very often.

The building has 5 floors and on each floor has one apartment only, making it a very quiet and private place to live.

Another great thing is you are front line to a beautiful park with many mature trees and and gardens, Your only disturbance is the sound of birds and only 2 minutes walk to one of many beaches.
