APARTMENT 2 BEDROOMS 1 BATHROOM

Extraordinary design apartment where the materials and qualities used make it an apartment of exquisite taste to live and enjoy.

Located on the third floor where it allows us to enjoy unobstructed and panoramic views of the sea and the surroundings. This is the distribution: Entering the apartment, we have a small entrance hall that gives us access to the house. We have the large living room where it is located, the washing machine, dryer and furniture for cleaning supplies, all within a piece of furniture so as not to make an appearance and break the aesthetics, domain of the entire apartment. The American kitchen with induction hob and accompanied by a griddle to enjoy grilled food. The furniture that holds all this is designed to house all kitchen utensils while remaining hidden. The smoke extraction hood is suspended from the ceiling in a way that does not seem to exist, all enjoying a led lamp lighting. Through this room we can reach the terrace where we can enjoy the beautiful views of the horizon watching that beautiful Mediterranean Sea.

From the living room we access, to the left side with a bedroom, today used as a dressing room. In front of the bathroom so spacious that two people can be at the same time. Shower with non-slip floor and a large glass window that allows light to enter from the bedroom. And on the right is the bedroom with a large window where you can see the rays of dawn light.

Details: The window frames are so thick that the curtains are watertight. The air conditioning of the famous DAIKIN brand, enters all rooms. The lighting, sometimes hidden, allows us quality and enjoyment by being more attenuated.

The apartment has an elevator that takes us directly to the 2 parking spaces and where it also has a large storage room. ALL OF IT AT THE SAME PRICE. Community pools, garden, paddle tennis court, small park for the little ones, complete the installation that the residents of this wonderful complex can enjoy.
