According to the World Health Organisation, Murcia has one of the healthiest climates in the world, with an average of 320 days of sunshine a year. So whenever you choose to use your new home, it's unlikely to disappoint.

Upon entering the duplex apartment, you'll find a living and dining area. Further down, there is a compact but fully functional kitchen, with a small outside storage area that has space for a washing machine and hot water boiler. On the first floor, there's also one good-sized bedroom and a bathroom.

On the second floor, there's a smaller room on the street side that could be used as a single-bed bedroom, or a small office or storage room. On the right side, you'll find the master bedroom, with an en-suite bathroom and a south-west facing terrace. Both of the larger rooms have built-in wardrobes.

The property has three newly installed air conditioning units (hot and cold). In the basement, the apartment also has a small storage area for bicycles or beach equipment.

The property is located just 100 meters from the beaches of Los Alcazares, and 150 meters from "the boulevard", where you'll find bars, restaurants, and a grocery shop. All amenities are within walking distance.
